

Jaden Rose

Hometown: Park River, ND

School: Park River Highschool

Internship: Walsh County Press, Park River

This previous summer is definitely a summer I will never forget. When I was given the opportunity to have an internship writing for the Walsh County Press I was ecstatic. Writing has always been my passion, but I had never written for a newspaper before. Being shy, made me nervous at first, just because of the mere fact that I would have to talk to and interview individuals that I wasn't familiar with. But after a couple of interviews, which turned into articles, it turned out to be something I really loved doing. This internship made me break out of my shell and really change into a more confident writer. With this internship, I really got involved with the community and the community members, that was a great way to feel connected with everyone in the town. Also, I would like to give a huge thank you to the people who I worked alongside at Walsh County Press. Thank you for always being very kind, involved, and supportive of me, that made this internship so much more fun. Overall this experience is something that I will never forget, it was amazing to be involved with the community, work with amazing individuals, and do something I love to do, write.
